INCREDIBALL® HYDRANGEA
Hydrangea arborescens

This improved version of 'Annabelle'
has large flowers held upright on
sturdy stems – no flopping!

2016
LANDSCAPE
PLANT OF
THE YEAR

LITTLE LIME®
*Hydrangea
paniculata*

The dwarf form of 'Limelight' hydrangea has the same easy flowering and unusual color of the original but is only 3-5' tall.

SHOW OFF®
Forsythia x

The exceptional flower display and compact size of these new forsythias make them superior choices for landscapes.

KODIAK®
Diervilla

More colorful selections of this durable native plant. Choose from Orange, Red, or Black.

TINY WINE®
Physocarpus opulifolius

Finely textured disease-resistant cultivar of our native ninebark. The dark foliage turns red in fall.

PLANT OF
THE YEAR

**YUKI CHERRY
BLOSSOM™**
Deutzia

Finally, a pink flowered Deutzia 'Nikko'! This compact, deer-resistant Deutzia is great for mass plantings, and adds both spring and fall color to the landscape.

2018
LANDSCAPE
PLANT OF
THE YEAR

SPILLED WINE®
Weigela florida

A compact version of Wine & Roses®, it is just 2-3' tall and 3' wide. An excellent choice for mass plantings.

SUGAR SHACK®
Cephalanthus occidentalis

Compact form of our native buttonbush, it has showy red fruit. A good plant for rain gardens and wet sites.

LEMONY LACE®
Sambucus racemosa

A showy native plant with outstanding color and texture, Lemony Lace™ Sambucus is an excellent specimen plant. Use it as an alternative to Japanese maple in harsh climates.

**DOUBLE PLAY®
BIG BANG™**
Spiraea

Massive pink flowers and showy orange spring foliage make this a superior spiraea selection.
