The Home of Proven Winners® Perennials

Walters Gardens has been producing and supplying perennial plants throughout North America since 1946; specializing in starter material, both plug liners and field grown bare root.

In the early days of the company, Walters Gardens grew a reputation for sourcing new and unique genetics from Europe. With the addition of a Tissue Culture Lab in 1976, lab managers and technicians began identifying sports with positive characteristics and introducing these plants alongside other more traditional hybrids. Today, the New Plant Development Department, headed by Hans Hansen, works with more than 70 genera. The department works on goal-oriented plant development programs, aimed at identifying varieties with improved performance for both home and commercial landscapes. Out of the hundreds of introductions this program has identified and brought to market, only the very best are selected for Proven Winners.

The fruits of the partnership between Walters Gardens and Proven Winners can be seen in the continued growth of the Perennial program and the continued support of our customers who keep coming back for more.

Walters Gardens Executive Team
 From left to right: John Walters, Christa (Walters) Steenwyk, Troy Shumaker, Karin Walters, Ryan Hop

A Better Garden Starts With A Better Plant®. To ensure only the top performing perennials are included in the Proven Winners brand, they are first trialed extensively. Trialing begins here at Walters Gardens, where new perennials are observed growing in ground and in containers. From there, the top selections are passed along to the other Proven Winners member companies for additional trialing. After each trial is complete, plants are reviewed and either accepted or rejected for the brand. Upon introduction, new Proven Winners Perennials are sent to numerous other trialing sites around North America for additional data collection.

US Perennial Trial Sites

Site	Zone	Site	Zone
Chicago Botanical Garden <i>Glencoe, IL</i>	Zone 5	Pleasant View Gardens <i>Loudon, NH</i>	Zone 5
Dallas Arboretum <i>Dallas, TX</i>	Zone 8	University of Georgia <i>Athens, GA</i>	Zone 8
Four Star Greenhouse <i>Carleton, MI</i>	Zone 6	Virginia Tech <i>Blacksburg, VA</i>	Zone 6
University of Minnesota <i>Morris, MN</i>	Zone 4	Walters Gardens <i>Zeeland, MI</i>	Zone 6

Performance in the landscape is the reason these perennials have been chosen for Proven Winners®. Consumers trust Proven Winners® because the product is proven.

Recognized more by consumers than any other plant brand, the white container adds millions of marketing impressions to your business with only its presence.

The Proven Package

Building Sales on Brand Awareness

We believe in the power of the Proven Package and all of the research that stands behind it. Perennials sold in Proven Winners branded containers sell more plants with brand awareness and consumer success. Our customers are showing us every year with their repeat orders and order increases that Proven Winners Perennials are some of their top sellers.

The Proven Package is essential for brand awareness—consumers know to look for the white Proven Winners branded container when they shop. That is why the white Proven Winners branded container and label are required for all Proven Winners Perennials. Benchcards are optional, but highly recommended, for retailers. Visit www.provenwinners.com/perennial-benchcards

Proven Winners® Stake Labels

All of the Proven Winners Perennials are sold with the Proven Winners stake label shown here. They are 7.25" tall and 2.25" wide, feature easy to read information, and a QR code which provides additional images, growing tips, features and awards. The cost of this label is included in the Variety License Fee amount for each plant.

Packaged Marketing Solutions from Proven Winners®

CONNECT+ is a new program from Proven Winners that organizes their existing marketing services into a tiered yearly fee. The first tier remains free, including all of the benefits of becoming a Certified Proven Winners Retailer. CONNECT+ packages additional services to help your business with localized marketing. By grouping their services together, Proven Winners is able to offer more cost effective benefits to the IGCs who carry their products.

Customers of Walters Gardens carrying Proven Winners products are encouraged to review the table below not only for new opportunities, but to ensure they are currently taking advantage of the free benefits offered through Proven Winners.

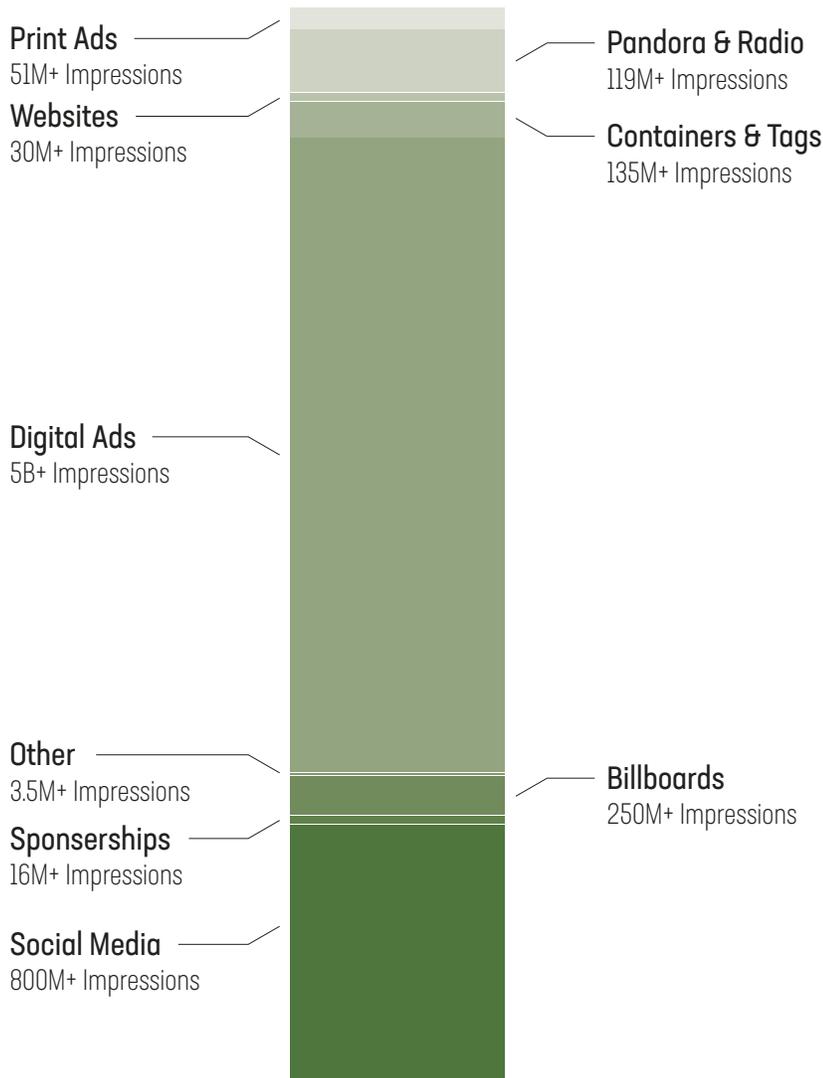

To learn more about the individual benefits from Proven Winners outlined in CONNECT+, visit www.provenwinners.com/connect or call 815-895-1872 to speak with Proven Winners' CONNECT+ marketing specialist.

6 Billion Impressions Delivered

Great plants make a great plant brand. But it also takes an incredible amount of resources to build brand awareness among trade and consumer audiences. Millions of dollars are spent each year on one of the most extensive marketing campaigns of any plant brand. Ever wonder what impact Proven Winners marketing is making in your area? Select your State/Province at www.provenwinners.com/professionals/localmarketing

In addition to Proven Winners' own social media efforts, they have partnered with Garden Answer and their 2.6 million followers to create fresh, original content across all major platforms.

Watch for these perennials in Garden Answer's videos!

National Plants of the Year™

2020

What Makes a Perennial of the Year?

While each Proven Winners plant is exceptional in its own way, only the very best can do so under national attention. The National Perennial of the Year™ and National Hosta of the Year™ programs seek to highlight a pair of perennials that represent the very best of the best. These plants were selected for their ease of care and far reaching excellence that can be enjoyed by many.

'Denim 'n Lace'

Perovskia a. (Russian Sage)

2020 Proven Winners® Perennial of the Year

'Coast to Coast'

SHADOWLAND® Hosta

2020 Proven Winners® Hosta of the Year

2021

About the 2020 Winners

'Denim 'n Lace' Perovskia was selected as the 2020 winner thanks to its impeccable habit, early blooming, and lasting performance. Unlike the species which can be rather wild and run about the garden, 'Denim 'n Lace' stays put and tidy all season long. 'Coast to Coast' was chosen to represent the Hosta of the Year thanks to its large landscape presence, beautifully corrugated gold foliage, and elegant vase-like habit. Look for these when planning your spring wishlist!

'Cat's Pajamas'

Nepeta (Catmint)

2021 Proven Winners® Perennial of the Year

'Wheee!'

SHADOWLAND® Hosta

2021 Proven Winners® Hosta of the Year

2022

More than just Perennials

The National Plant of the Year™ program includes more than a perennial and a hosta each year. The program stretches across annuals and shrubs as well. While each plant is chosen based on independent merit, their quality and versatility usually make them beautiful companion plants to each other. To view this year's National Plant of the Year™ collection, visit www.nationalplantoftheyear.com

'Paint the Town Magenta'

Dianthus (Pinks)

2022 Proven Winners® Perennial of the Year

'Diamond Lake'

SHADOWLAND® Hosta

2022 Proven Winners® Hosta of the Year

Destinations

Use a **Store Within a Store** to draw attention to the value already on your shelves. Endcaps, signage, and specialized shelving all help to elevate the brand in the eyes of your customers. If you treat your Proven Winners perennials as the special plants they are, your customers will see them as special as well. For ready-to-go signage, customizable POP, and to begin building your destination, visit www.provenwinners.com/pop

Merchandise, Market, and Maintain Your Destination

First, merchandise. Plan your location so that it feels truly unique not only to Proven Winners, but to your business as well. Next, market your Proven Winners Destination! Proven Winners is the #1 Plant Brand for a reason, let your customers know you're a part of it. And finally, maintain it by keeping shelves full, tidy, and ready for your customers.

Can you imagine this display jazzed up with a little benchtape?

Proven Pollinators®

PROVEN POLLINATORS®
Create a backyard buffet for your favorite pollinators!

This new merchandising program from Proven Winners offers a variety of POP to help you create informative and educational displays around the important message of building pollinator gardens. Pollinator gardens continue to be a “buzz” word with consumers. The Proven Pollinators program provides the tools to share this message in your store.

Recommended Perennials for Pollinators:

- 'Serendipity' Allium
- FALL IN LOVE™ 'Sweetly' Anemone
- COLOR CODED™ & LAKOTA™ Echinacea
- Tuscan Gold™ & 'Tuscan Sun' Heliopsis
- PYROMANIA™ Kniphofia
- Leading Lady and Pardon My Monarda
- 'Cat's Meow' & 'Cat's Pajamas' Nepeta
- 'Denim 'n Lace' Perovskia
- COLOR SPIRES® & Profusion Salvia
- MAGIC SHOW® Veronica

Incorporating the Proven Pollinators program into your store is easy with the ready made POP materials available through Proven Winners. The full line up can be viewed and purchased at www.provenwinners.com/catalog/point-purchase-materials/proven-pollinators-signage

Success at Trial Sites

In 2019 the Proven Pollinator program was trialed at 10 retail locations throughout the US. The result? Increased sales later in the season of larger, higher cost items and more pollinator gardens planted.

Molbak's Garden + Home put together the annual display pictured, using Proven Pollinator benchtape, containers and secondary tags. Annuals in the Proven Pollinator containers outsold the same varieties in a standard pot 2:1.

Summerific® Week

AUGUST 2-8, 2021

Summerific® Hibiscus are one of the most iconic landscape perennials with massive 8" flowers and a head turning midsummer display. We are choosing the first full week of August every year to highlight this collection and feature one of our absolute favorite perennials. There is a lot to love about these plants, and we're hoping you'll help us spread the word!

How to Make this Year Summerific®

When Summerific® week rolls around, make sure you have your plants featured in your store. Then, join the Hibiscus-mania by sharing your plants on social media. Let your customers know you've got Summerific® Hibiscus by posting during this week.

We will be partnering with garden communicators to post about Hibiscus during this week. You can help to spread the word by tagging us on Facebook or using [#SummerificWeek](https://www.instagram.com/explore/tags/SummerificWeek) on Instagram featuring your Hibiscus.

We will be sharing and re-posting our favorite [#SummerificWeek](https://www.instagram.com/explore/tags/SummerificWeek) posts throughout the week. If we love your Summerific® photo, we may also send you some Proven Winners® swag! Be sure to tag us so we see your photo.

Use [#SummerificWeek](https://www.instagram.com/explore/tags/SummerificWeek) from August 2-8 then tag us [@WaltersGardens](https://www.instagram.com/WaltersGardens) in your Summerific® post and we might send you some Proven Winners® swag!

Branded Containers

We strongly believe that Proven Winners branded containers are essential to the success of the brand, ensuring better brand recognition and increased sell-through to consumers. Therefore, Proven Winners branded containers are required for all Proven Winners Perennials.

Six sizes of containers are available for Proven Winners Perennials. For your convenience, the recommended container size is listed for each Proven Winners variety in this catalog and online. You may purchase any size container you'd like for your perennials. If you don't specify a container size when you place your order, we will send the recommended size.

One container is shipped for every one Proven Winners Perennial. For example, 20 containers will be included for each tray of 20 plugs.

Containers are stocked and shipped from Walters Gardens, Inc. with or just in advance of your plant order.

Proven Winners® Branded Container Pricing

You may obtain our current branded container pricing and volume discounts from the login area of our website or by contacting your sales representative, broker, or Walters Gardens.

Due to the unpredictable nature of plastic prices, we cannot guarantee container prices will not change throughout the year. However, container prices are locked in when you place your order.

Branded Container Sizes

Name (Pot#)	Size	Soil Capacity	Volume

'Firefly Amethyst' *Achillea* PPAF CPBRAf

'Firefly Diamond' *Achillea* PPAF CPBRAf

'Firefly Peach Sky' *Achillea* PPAF CPBRAf

'Firefly Sunshine' *Achillea* PPAF CPBRAf

Firefly Achillea

Achillea (Yarrow) are excellent perennials with a long season of interest. Prior to blooming, these plants showcase delicate feathery foliage; after flowering, dried seedheads remain colorful. The Firefly series was bred for sturdy upright stems and longer lasting, numerous flowers. All members of this collection are intermediate in height, perfect for the middle of the border.

'Firefly Amethyst' - Bright lavender pink flowers transition to bluish pink.

'Firefly Diamond' - Ivory white flowers are exceptionally long lasting.

'Firefly Peach Sky' - Apricot orange flowers transition to peachy yellow.

'Firefly Sunshine' - Bright yellow flowers have long lasting color.

EXPOSURE: Full Sun

BLOOMS: Midsummer

HEIGHT: 20-32", depending on variety

SPACE: 28-38", depending on variety

ZONE: 3-8

'Serendipity' *Allium* PPAF CPBRAf

'Serendipity' Allium (Ornamental Onion)

A sport of the 2018 PPA Perennial Plant of the Year™, Allium 'Millenium'. 'Serendipity' matches the performance and flowering of 'Millenium' but varies with glaucous blue foliage. Use this plant in sunny, dry places or in containers and love it for its deer resistance as well as decorative fall seed heads.

EXPOSURE: Full Sun to Light Shade

BLOOMS: Mid to Late Summer

ZONE: 4-8

HEIGHT: 15-20"

SPACE: 10-15"

'Storm Cloud' *Amsonia tabernaemontana*

'Storm Cloud' Amsonia (Blue Star)

A spring blooming nativar with substantial size, this perennial is quick to make an impact each year. Near-black stems emerge first before adding dark green leaves with silver veins. Periwinkle-blue flower clusters follow, the "blue stars" from which the plant gets its common name. Exceptionally long lived.

EXPOSURE: Full Sun to Light Shade HEIGHT: 24-30"
BLOOMS: Late Spring - Early Summer SPACE: 38-42"
ZONE: 4-9

FALL IN LOVE™ 'Sweetly' *Anemone* PP31089 CPBRAE

Fall in Love™ 'Sweetly' Japanese Anemone

This fall blooming Anemone is a prolific bloomer of semi-double rose pink flowers. Gardeners looking for a late season pollinator plant will be pleased with the performance of this plant, as will those looking for deer and rabbit resistance. This variety shakes the bad reputation of the genus and spreads slowly through rhizomes; it will not overtake your landscape.

EXPOSURE: Full Sun to Part Shade HEIGHT: 20-26"
BLOOMS: Late Summer to Early Fall SPACE: 24-30"
ZONE: 4-8

'Chantilly Lace' *Aruncus* PPAF CPBRAE

'Chantilly Lace' Aruncus (Goat's Beard)

'Chantilly Lace' offers a gorgeous blend of contrasting textures with lacy sprays of cream flowers and fine, serrated foliage. A highly versatile perennial, 'Chantilly Lace' can be plugged into a wide variety of landscape locations. Performance will be best in filtered shade or morning sun with moderate moisture; more water is required with more sun exposure.

EXPOSURE: Full Sun to Full Shade HEIGHT: 30-32"
BLOOMS: Early to Midsummer SPACE: 40-48"
ZONE: 3-7

'Crested Surf' *Athyrium niponicum* PPAF CPBRAE

'Crested Surf' Athyrium (Japanese Painted Fern)

A highly decorative, double crested Japanese Painted Fern, 'Crested Surf' is the perfect complement to wide leaved hostas and hydrangeas. This variety shows excellent vigor in the garden and containers, particularly when compared with other crested varieties.

EXPOSURE: Light to Full Shade HEIGHT: 20-22"
ZONE: 3-8 SPACE: 28-30"

DECADENCE® 'Blueberry Sundae'

Baptisia PP25663 CPBR5564

DECADENCE® DELUXE 'Blue Bubbly'
Baptisia PPAF CPBRA

DECADENCE® DELUXE 'Pink Lemonade'
Baptisia PP30669 CPBRA

DECADENCE® DELUXE 'Pink Truffles'
Baptisia PP26588 CPBRA

DECADENCE® Baptisia

Hybridized and selected for their shorter, more compact habit and unique flower colors, DECADENCE® Baptisias are scaled to fit easily into today's home gardens. Their showy spring blooms add colorful flair followed by decorative seed pods which add interest to the fall garden. Baptisia can be found growing naturally in meadows, tolerating heat and drought with ease and resisting deer browsing too. Be sure to choose a permanent location when planting Baptisia since mature plants resent being disturbed.

- DECADENCE® 'Blueberry Sundae' - Vibrant indigo blue blossoms.
- DECADENCE® 'Cherries Jubilee' - Maroon and yellow blossoms age to gold.
- DECADENCE® 'Dark Chocolate' - Charcoal purple flowers with pale yellow keels.
- DECADENCE® 'Lemon Meringue' - Lemon yellow flowers on charcoal stems.
- DECADENCE® 'Sparkling Sapphires' - Vivid violet blue blossoms.
- DECADENCE® 'Vanilla Cream' - Pastel yellow buds open to creamy vanilla flowers.

EXPOSURE: Full Sun to Light Shade
BLOOMS: Late Spring to Early Summer
ZONE: 4-9
HEIGHT: 2½-3', depending on variety
SPACE: 2-3', depending on variety

DECADENCE® DELUXE Baptisia

DECADENCE® DELUXE Baptisia are a sub-series of the popular DECADENCE® series. They match the flowering and spread of their series counterparts but have a noticeably taller habit, rising about a foot above standard DECADENCE® varieties. These taller plants can be used along the back of the border or planted en masse as a colorful hedge.

- DECADENCE® DELUXE 'Blue Bubbly' - Sky blue flower spikes.
- DECADENCE® DELUXE 'Pink Lemonade' - Flowers open light yellow and mature to a dusky raspberry purple.
- DECADENCE® DELUXE 'Pink Truffles' - Clear soft pink flowers with a pale yellow keel.

EXPOSURE: Full Sun to Light Shade
BLOOMS: Late Spring to Early Summer
ZONE: 4-9
HEIGHT: 3½-4½', depending on variety
SPACE: 3½-4', depending on variety

'Jack of Diamonds' *Brunnera macrophylla* PPAF CPBRAf

'Jack of Diamonds' Heartleaf Brunnera

'Jack of Diamonds' has massive 9-10" leaves that are impossible to miss in the landscape. This variety has a unique "escargot" type appearance with overlapping lobes at the base of each leaf. Airy sprays of baby blue, forget-me-not flowers appear in spring.

EXPOSURE: Part to Full Shade
BLOOMS: Mid to Late Spring
ZONE: 3-8

FOLIAGE HEIGHT: 14-16"
FLOWER HEIGHT: 30"
SPACE: 28-32"

'Queen of Hearts' *Brunnera macrophylla* PPAF CPBRAf

'Queen of Hearts' Heartleaf Brunnera

'Queen of Hearts' has a leaf size matching its counterpart, 'Jack of Diamonds', but differs with a much heavier silver overlay. Perfect shade perennials, Heartleaf Brunnera are more drought tolerant than hostas and have contrasting silver leaves. Airy sprays of baby blue, forget-me-not flowers appear in spring.

EXPOSURE: Part to Full Shade
BLOOMS: Mid to Late Spring
ZONE: 3-8

FOLIAGE HEIGHT: 16-18"
FLOWER HEIGHT: 30"
SPACE: 28-36"

'Miss Piggy' *Bergenia* PPAF CPBRAf

'Miss Piggy' Bergenia (Pigsqueak)

A unique evergreen perennial, 'Miss Piggy' has leaves with thick substance that makes them undesirable to rabbits and deer. The broad foliage results in a fuller looking plant than what is typical of the genus. An early spring bloomer, this variety blooms at the same time as many bulbs. Flower color intensifies with age.

EXPOSURE: Full Sun to Full Shade
BLOOMS: Early to Mid Spring
ZONE: 4-9

HEIGHT: 16-18"
SPACE: 28-32"

'Stand By Me' *Clematis* PP30556 CPBRAf

'Stand By Me' Bush Clematis

A non-vining Clematis with a much longer, heavier bloom than traditional vining varieties. An abundance of buds will provide color all summer before turning into thread-like cream seedheads. Surround 'Stand By Me' with sturdy neighboring plants or some form of support in order to appreciate this perennial all season long.

'Paint the Town Fancy' *Dianthus* PPAF CPBRA

'Paint the Town Fuchsia' *Dianthus* PP28636 CPBR5815

'Paint the Town Red' *Dianthus* PPAF CPBRA

Paint the Town Dianthus

Unlike the double-flowered FRUIT PUNCH® *Dianthus*, the Paint the Town series is made up of single-flowering varieties. Though the blooms may be smaller, the flowers are abundant. Each member of this series produces flowers profusely in early summer, completely covering the foliage. Good rebloom in early fall. Flowers 1-2 weeks earlier than than the FRUIT PUNCH® series.

'Paint the Town Fancy' - 1", serrated, rosy fuchsia flowers with a red eye.

'Paint the Town Fuchsia' - ¾-1" serrated fuchsia flowers.

'Paint the Town Magenta' - ¾-1" serrated magenta-pink flowers.

'Paint the Town Red' - ¾-1" serrated deep magenta-red flowers.

FRUIT PUNCH® Dianthus

Prized for their beautifully fragrant, double flowers, FRUIT PUNCH® Dianthus are very easy to grow in any sunny area. Their flowers stand like mini carnations atop a short mound of evergreen foliage in early summer. A quick shearing after flowering will encourage them to rebloom in early fall.

FRUIT PUNCH® 'Black Cherry Frost' - Velvety red flowers have a finely serrated pink edge.

FRUIT PUNCH® 'Cherry Vanilla' - Deep red flowers with a lighter pink picotee edge.

FRUIT PUNCH® 'Classic Coral' - Semi-double, striking coral pink flowers.

FRUIT PUNCH® 'Cranberry Cocktail' - Hot magenta pink blossoms.

FRUIT PUNCH® 'Maraschino' - Bright red blossoms.

FRUIT PUNCH® 'Raspberry Ruffles' - Raspberry pink, double blossoms.

FRUIT PUNCH® 'Spiked Punch' - Fuchsia pink flowers, deep red eyes.

FRUIT PUNCH® 'Sweetie Pie' - True pink blossoms.

'Pink Diamonds' *Dicentra* PPAF CPBRAf

'Pink Diamonds'

Dicentra (Fern-leaved Bleeding Heart)

A breakthrough Dicentra with season long flower performance and blue-green, fern-like foliage. This variety is not recommended for shade, it performs best and will have its richest flower color in full sun with consistent moisture and good drainage. The fragrant pink blooms of this plant can be used to attract pollinators or in cut flower arrangements.

EXPOSURE: Full Sun to Light Shade

HEIGHT: 12-16"

COLOR CODED™ 'Orange You Awesome' *Echinacea* PPAF CPBRAf

COLOR CODED™ 'The Price is White' *Echinacea* PPAF CPBRAf

COLOR CODED™ 'Yellow My Darling' *Echinacea* PPAF CPBRAf

COLOR CODED™ Echinacea

The new COLOR CODED™ Echinacea series is set to claim a place in your garden. Large flowers have wide overlapping petals that stick out horizontally from the cone to maximize the floral display. Full, well-branched habits ensure that many flowers are produced throughout the summer. An excellent choice to color up sunny, dry areas and please pollinators.

COLOR CODED™ 'Frankly Scarlet' – 4" bright scarlet orange flowers.

EXPOSURE: Full Sun to Light Shade

COLOR CODED™ 'Orange You Awesome' – 4½" tangerine orange flowers have dark cones.

BLOOMS: Early Summer to Early Fall

ZONE: 4-8

COLOR CODED™ 'The Price is White' – 5" wide white flowers with green cones.

HEIGHT: 20-22"

SPACE: 16-20"

COLOR CODED™ 'Yellow My Darling' – 4-4½" rich yellow flowers.

LAKOTA™ Fire Echinacea

Lakota™ Fire Echinacea (Coneflower)

Formerly known as E. 'Santa Fe', this seed strain has been renamed to reflect the fiery red and orange colors in the mix. LAKOTA™ Fire is an excellent addition to any pollinator or cut flower garden with flowers lasting all the way to frost. This native hybrid has excellent heat and drought tolerance once established.

EXPOSURE: Full Sun to Light Shade HEIGHT: 12-16"

FESTIVAL STAR® *Gypsophila paniculata* ('Danifestar' PPI4818 CPBR2631)

Festival Star® Gypsophila (Baby's Breath)

An extremely long blooming perennial and a staple of cut flower growers, Gypsophila is one of the best accent plants to put in the garden. Finely textured plants covered in sprays of pure white flowers complement a wide variety of plants. An excellent choice for containers, heat, and drought tolerance. This variety does not go summer dormant.

EXPOSURE: Full Sun HEIGHT: 12-18"

Daylily Features

When daylilies are registered, they will be listed with their most prominent characteristics. These classifications help categorize and highlight the unique traits that have been found in new daylily hybrids. RAINBOW RHYTHM® Daylilies all display a number of these unique traits, here they are grouped by some of their most notable.

RAINBOW RHYTHM® 'Ruby Spider'

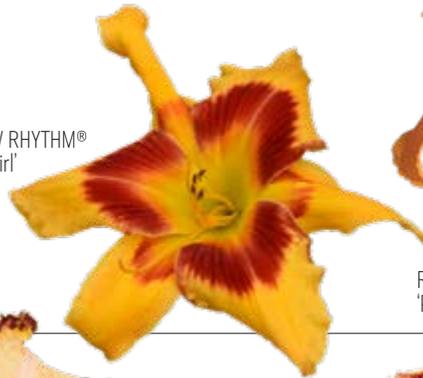

Spider

Daylilies with petals that are 4 times longer than they are wide.

Unusual Flower Form

Daylilies with pinched or twisted petals. These varieties might also be referred to as "crispate."

RAINBOW RHYTHM® 'Tiger Swirl'

RAINBOW RHYTHM® 'Primal Scream'

RAINBOW RHYTHM® 'Going Bananas'

RAINBOW RHYTHM® 'Siloam Peony Display'

Double

Daylilies with an extra petal whorl or petaloid stamens.

RAINBOW RHYTHM® 'Lake of Fire'

RAINBOW RHYTHM® 'Storm Shelter'

RAINBOW RHYTHM® 'Orange Smoothie'

RAINBOW RHYTHM® 'Sound of My Heart'

Piecrust

Daylilies with ruffled petal edges, not unlike those of a piecrust.

RAINBOW RHYTHM® 'Nosferatu'

Rebloomer

Daylilies with a second flush of flowers extending the initial bloom period.

DOLCE® Heuchera

DOLCE® Heuchera (Coral Bells) are extremely versatile perennials that provide much needed color to most garden spaces. These plants are mainly grown for their foliage color, but can also be enjoyed for their attractive flowers in summer (depending on the variety). DOLCE® are smaller stature plants, appropriate for use in containers and small spaces in the garden.

- DOLCE® 'Appletini' - Chartreuse green foliage has a silver overlay. Rich, ruby red flowers.
- DOLCE® 'Apple Twist' - Chartreuse yellow foliage is rippled; newly emerging leaves have red veining.
- DOLCE® 'Cherry Truffles' - Mahogany red leaves are heavily ruffled.
- DOLCE® 'Silver Gumdrop' - Silver, iridescent leaves have a semi-glossy finish. Vibrant, bright pink flowers.
- DOLCE® 'Spearmint' - Silvery green leaves. Bicolor pink flowers.
- DOLCE® 'Toffee Tart' - Ginger caramel leaves with a silver overlay. Creamy white flowers.
- DOLCE® 'Wildberry' - Glossy, bold purple leaves have charcoal veining.

PRIMO® Heuchera

Gardeners and landscapers alike can appreciate the size and vigor of PRIMO® Heuchera. These Heuchera do not need to be planted at the front of the border or in groups to make a significant landscape impact as all members of this series were selected for their ability to grow to incredible size. Mature versions of these plants will have leaves larger than your hand and habits comparable to a medium sized hosta.

A perfect complement to the DOLCE® Series, PRIMO® Heuchera have a more sizeable landscape presence with large, vigorous habits. These large-leafed varieties will make a statement all season long as they were chosen for their color fastness and heat tolerance.

PRIMO® 'Black Pearl' - Ruffled jet black foliage is glossy; rosy purple undersides.

PRIMO® 'Mahogany Monster' - Massive glossy, mahogany red leaves.

PRIMO® 'Peachberry Ice' - Large apricot orange leaves have a silver overlay.

PRIMO® 'Pretty Pistachio' - Chartreuse foliage transitions to lime in summer. Giant pink flower clusters.

PRIMO® 'Wild Rose' - Rose purple foliage. Rosy pink flowers.

FUN AND GAMES® 'Hopscotch' *Heucherella* PP28750 CPBR5818

FUN AND GAMES® 'Red Rover' *Heucherella* PP28751 CPBR5819

FUN AND GAMES® Heucherella

A Heucherella is a hybrid of the genus Heuchera and Tiarella. From Heuchera, Heucherella get a wide variety of foliage colors and from Tiarella they gain additional leaf shapes and central patterns. The FUN AND GAMES® Collection takes full advantage of these new color and leaf features with three unique selections. As foliar plants, these perennials hold their interest for a long time and are perfect for mixed containers.

FUN AND GAMES® 'Eye Spy' – Amber yellow leaves with deep rose centers. Bubblegum pink flowers are free-flowering, earlier blooming than the DOLCE® and PRIMO® Heuchera series.

FUN AND GAMES® 'Hopscotch' – Bronze red leaves have very serrated margins.

FUN AND GAMES® 'Red Rover' – Coppery red foliage is deeply lobed.

SUMMERIFIC® Hibiscus

SUMMERIFIC® Hibiscus have the potential to make a major impact on any landscape to which they are added. Each variety produces a profusion of blooms for many weeks beginning in the middle of summer, creating an excellent backdrop for other end-of-year plants. When not in bloom, the dark leaf varieties of the collection provide excellent contrast against the normal garden green. These plants are late to emerge but fast growers when they do!

SUMMERIFIC® 'Ballet Slippers' – 7" ruffled white flowers have blush pink edges and a deep red eye. Bright green, serrated foliage.

SUMMERIFIC® 'Berry Awesome' – 7-8" wide lavender pink flowers have red eyes and contrasting midnight green foliage.

SUMMERIFIC® 'Candy Crush' – 8" bubblegum pink flowers have a near-black, dark red eye. The upright, columnar habit matches 'Cranberry Crush'.

SUMMERIFIC® 'Cherry Choco Latte' – 8-9" flowers are the largest of the collection with intense deep pink veining radiating from a large red eye.

SUMMERIFIC® 'Cranberry Crush' – 7-8" wide flowers are deep scarlet red. Deep green, maple-like leaves cover an upright, columnar habit.

SUMMERIFIC® 'Evening Rose' – 8" puckered flowers are hot pink and stand out on near black foliage. The gumdrop-like habit flowers from top to bottom.

SUMMERIFIC® 'French Vanilla' – 7-8" creamy custard yellow, ruffled flowers have prominent red eyes. Yellow flower buds. Deep green foliage.

SUMMERIFIC® 'Holy Grail' – 8-9" flowers are a rich, deep red. Near black foliage is covered with flowers from top to bottom while in bloom.

SUMMERIFIC® 'Perfect Storm' – 7-8" flowers white flowers have bright red eyes and pink veining; each petal is edged in pink. Exceptionally dark foliage.

SUMMERIFIC® 'Spinderella' – 8" white pinwheel flowers have pink accented edges and dark red eyes. Dark green leaves form a dense, well-rounded habit.

SHADOWLAND® Hostas

Spotting the differences between a good Hosta and a great Hosta are sometimes difficult to see. The bright, wide margins of 'Autumn Frost' are immediately eye-catching, but understanding the value of the corrugated leaves on 'Diamond Lake' can't be captured in a single snapshot moment; nor can the sun tolerance it has compared to older varieties. SHADOWLAND® Hostas were selected not only for the apparent traits, but also those that ensure long lasting and consistent garden performance.

Hosta of the Year

A new distinction for members of the SHADOWLAND® Hostas that seeks to highlight an outstanding individual member of the collection each year. 2020 will feature 'Coast to Coast' in the starring role of the collection; one of our favorite large Hostas with enduring yellow color. 2021 will see 'Wheee!' take the crown, and 'Diamond Lake' the following year in 2022.

M	SHADOWLAND® 'Autumn Frost' - Leaves emerge frosty blue with a wide, bright yellow margin that lightens to creamy white. Light lavender flowers.	EXPOSURE: Full to Part Shade / BLOOMS: Mid to Late Summer ZONE: 3-9 / HEIGHT: 12" / SCAPE: 12-16" / SPACE: 24"
G	SHADOWLAND® 'Coast to Coast' - Foliage emerges gold in spring and lightens with more sun exposure. Leaves become thick and puckered with wavy edges.	EXPOSURE: Full to Part Shade / BLOOMS: Midsummer ZONE: 3-9 / HEIGHT: 30" / SCAPE: 36" / SPACE: 36"
L	SHADOWLAND® 'Diamond Lake' - Blue Hosta with attractive, heart-shaped, and heavily corrugated leaves. Large leaves can get up to 9" wide by 11" long.	EXPOSURE: Full to Part Shade / BLOOMS: Early to Midsummer ZONE: 3-9 / HEIGHT: 17" / SCAPE: 25-28" / SPACE: 45"
G	SHADOWLAND® 'Empress Wu' - One of the largest Hostas on the market. At maturity the leaves can reach a massive 1½ feet wide and long.	EXPOSURE: Full to Part Shade / BLOOMS: Early to Midsummer ZONE: 3-9 / HEIGHT: 36-48" / SCAPE: 48" / SPACE: 60-72"
M	SHADOWLAND® 'Etched Glass' - Sport of 'Stained Glass' with wider margins and thicker leaves. Very large and fragrant near-white flowers.	EXPOSURE: Full to Part Shade / BLOOMS: Mid to Late Summer ZONE: 3-9 / HEIGHT: 12" / SCAPE: 12-16" / SPACE: 24"
L	SHADOWLAND® 'Hudson Bay' - Wide, bright blue-green margins and apple-green jetting along the cream centers. The foliage is of heavy substance.	EXPOSURE: Full to Part Shade / BLOOMS: Early to Midsummer ZONE: 3-9 / HEIGHT: 18" / SCAPE: 36" / SPACE: 36"
L	SHADOWLAND® 'Seducer' - Dark green foliage has slightly ruffled, gold margins and a trace of white between the margin. Near-white, tubular flowers.	EXPOSURE: Full to Part Shade / BLOOMS: Late Summer ZONE: 3-9 / HEIGHT: 26" / SCAPE: 36-40" / SPACE: 36"
M	SHADOWLAND® 'Waterslide' - Wavy, ruffled leaves with heavy substance. Rippled leaves hold their blue color well into the summer season. Lavender flowers.	EXPOSURE: Full to Part Shade / BLOOMS: Midsummer ZONE: 3-9 / HEIGHT: 14" / SCAPE: 17" / SPACE: 32"
M	SHADOWLAND® 'Wheee!' - An extremely ruffled Hosta. Cream colored margins extend from the tip of each leaf down the petiole to the crown.	EXPOSURE: Full to Part Shade / BLOOMS: Midsummer ZONE: 3-9 / HEIGHT: 11-18" / SCAPE: 24" / SPACE: 28-30"
G	SHADOWLAND® 'Wu-La-La' - Variegated sport of 'Empress Wu'. Allow five years to reach full maturity; fertilizing and watering well to reach its full potential.	EXPOSURE: Full to Part Shade / BLOOMS: Early to Midsummer ZONE: 3-9 / HEIGHT: 36-48" / SCAPE: 48" / SPACE: 60-72"

PYROMANIA™

Kniphofia

(Red Hot Poker)

These recent introductions will set your landscape on fire beginning in early summer with a profusion of flower spikes. Earlier blooming than most, members of the PYROMANIA™ collection average an intermediate height. They are narrower than they are tall; one of the few perennials that will provide height in a small space without falling over in fall.

PYROMANIA™ 'Hot and Cold'
Kniphofia PP31185 CPBRAf

PYROMANIA™ 'Orange Blaze'
Kniphofia PPAf CPBRAf

PYROMANIA™ 'Backdraft'

Very wide flower spikes bear intense reddish orange flowers that open to peachy yellow for a two-tone effect.

PYROMANIA™ 'Flashpoint'

Chartreuse yellow buds mature to creamy white as the flowers open. The last member of the collection to bloom.

PYROMANIA™ 'Hot and Cold'

This bicolor variety has tangerine orange buds that open to creamy white flowers.

PYROMANIA™ 'Orange Blaze'

Orange flowers are densely packed on flower spikes proportionate to the foliage. One of the most compact of the collection.

PYROMANIA™ 'Rocket's Red Glare'

A stunning color choice! Incredibly long flower spikes have vibrant warm red buds that open to creamy peach flowers. Z6-9.

PYROMANIA™ 'Solar Flare'

Sunny yellow flowers hold consistent color throughout the season.

AMAZING DAISIES® 'Banana Cream' *Leucanthemum superbum* PP23181 CPBR4203

AMAZING DAISIES® DAISY MAY® *Leucanthemum superbum* ('Daisy Duke' PP21914 CPBR4376)

AMAZING DAISIES® Shasta Daisy

Shasta Daisies are all-time favorites for the perennial border. They mix so effortlessly with other perennials that no garden should be without them! The two varieties of the AMAZING DAISIES® collection produce flowers at each axillary shoot, allowing them to fully bloom over the top of their habits and continue to do so prolifically all summer long.

AMAZING DAISIES® 'Banana Cream' - The 4-5" wide flowers are lemon yellow when they open, brightening to creamy white as they mature. An extra row of ray petals gives the flowers a fuller appearance than single varieties.

AMAZING DAISIES® DAISY MAY® - 3" wide, single, pure white flowers with a gold button center form a solid dome of bloom. Exceptional rebloom on this free-flowering variety.

'Leading Lady Orchid' *Monarda* PPAF CPBRA

'Leading Lady Plum' *Monarda* PP26447 CPBR5566

'Pardon My Cerise' *Monarda didyma* PP29234 CPBRA

'Pardon My Lavender' *Monarda didyma* PP28770 CPBR5567

'Pardon My Pink' *Monarda didyma* PP24244 CPBR5100

'Pardon My Purple' *Monarda didyma* PP22170 CPBR5101

Leading Lady vs Pardon My Monarda

Members of the Leading Lady series are *M. bradburiana* hybrids. Compared to the *M. didyma* hybrids of the Pardon My series, the Leading Ladies flower about two weeks earlier and are shorter. Both series have clumping habits, though the Leading Ladies tend to be more low and wide than the moderate, narrow height of the Pardon My series.

Leading Lady Monarda

Monarda are commonly called Bee Balm because of their incredible popularity with pollinators while in bloom. These native plants are commonly found in sunny areas but can tolerate light shade. Watering and fertilizing well will increase the length and number of flowers during bloom.

'Leading Lady Orchid' - Orchid pink blossoms.
'Leading Lady Plum' - Magenta purple blossoms.

Pardon My Monarda

No room for the tall, bushy, traditional Bee Balm in your garden? Here is a series of moderately sized selections that are easy to tuck into your landscape. Reaching just a little over a foot tall at maturity, these compact selections form bushy, well-branched clumps of green, semi-glossy foliage. All members of this series have shown good resistance to powdery mildew when compared with older varieties.

'Pardon My Cerise' - Dark cherry red flowers.
'Pardon My Lavender' - Light lavender pink flowers.
'Pardon My Pink' - Cheerful medium pink flowers.
'Pardon My Purple' - Fuchsia purple flowers.
EXPOSURE: Full Sun to Light Shade
BLOOMS: Mid to Late Summer
HEIGHT: 14-18"
SPACE: 10-12"
ZONE: 4-8

'Cat's Pajamas' *Nepeta* PP31127 CPBRAf

'Cat's Pajamas' Nepeta (Catmint)

A purr-fect Catmint for fans of 'Cat's Meow' who love the look but want a smaller scale version. In addition to being a little over half the height, 'Cat's Pajamas' also blooms about 2-3 weeks earlier than 'Cat's Meow'. Unlike older varieties, 'Cat's Pajamas' has blooms from the soil to the tips of the stems.

EXPOSURE: Full Sun
 BLOOMS: Early Summer to Early Fall
 ZONE: 3-8
 HEIGHT: 12-14"
 SPACE: 18-20"

'Cat's Meow' *Nepeta faassenii* PP24472 CPBR5098

'Cat's Meow' Nepeta (Catmint)

'Cat's Meow' has everything today's gardeners are looking for: a low maintenance, drought tolerant, deer resistant, long blooming perennial that looks great all season. Its small, grey-green, aromatic leaves are topped with well-branched stems carrying spikes of sky blue flowers with purple calyxes.

EXPOSURE: Full Sun HEIGHT: 17-20"
 BLOOMS: Early Summer to Early Fall SPACE: 24-36"
 ZONE: 3-8

'Drops of Jupiter' *Origanum* PPAf CPBRAf

'Drops of Jupiter' Origanum (Ornamental Oregano)

When planted in full sun, the leaves of 'Drops of Jupiter' are chartreuse yellow. Later in the summer, mauve pink flowers are held on purple calyxes. The calyxes hold after the flowers are spent and extend the attractiveness late into fall. Its leaves are edible, but will not have as intense of a flavor as its cousins.

EXPOSURE: Full Sun HEIGHT: 24"
 BLOOMS: Late Summer SPACE: 36"
 ZONE: 4-9

'Denim 'n Lace' *Perovskia atriplicifolia* PP28445 CPBR5568

'Denim 'n Lace' Perovskia (Russian Sage)

Gardeners have long loved Russian Sage for its airy texture and the ability to blend with pretty much any flower color. However, the cultivars available tended to be too large to fit in your garden or the stems wouldn't be strong enough and they would flop over. Enter 'Denim 'n Lace'! These flower stems will hold up to any weather condition.

EXPOSURE: Full Sun
 BLOOMS: Midsummer to Mid Fall
 ZONE: 4-9
 HEIGHT: 28-32"
 SPACE: 34-38"

'Midnight Masquerade' *Penstemon* PP29603 CPBRAE

'Midnight Masquerade' Penstemon (Beardtongue)

A native perennial with a myriad of practical landscape uses, 'Midnight Masquerade' comes from prairie roots and is naturally tolerant to heat, wind, and drought. This plant sends its flowers high in early summer to be easily seen by pollinators. Though this plant sways with the wind and provides excellent garden movement, it will not collapse.

EXPOSURE: Full Sun
 BLOOMS: Early to Midsummer
 ZONE: 3-8

HEIGHT: 36-40"
 SPACE: 28-32"

'Sage Advice' *Perovskia atriplicifolia* PPAF CPBRAE

'Sage Advice' Perovskia (Russian Sage)

Rich lavender purple flowers are produced on strong, upright plants filled with oval-shaped, notched leaves. This is early to bloom just like its counterpart 'Denim 'n Lace'. Compared to 'Denim 'n Lace', this is a slightly taller variety with darker purple calyxes and broader leaves, compared to the dissected leaves of the former.

EXPOSURE: Full Sun

SPRING BLING™ 'Pink Sparkles' *Phlox subulata* PPAF CPBRAf

SPRING BLING™ 'Rose Quartz' *Phlox subulata* PPAF CPBRAf

SPRING BLING™ 'Ruby Riot' *Phlox subulata* PPAF CPBRAf

SPRING BLING™ (Hybrid Creeping Phlox)

These spring groundcovers take Creeping Phlox to the next level of refinement and beauty. Beautifully mounded habits look better later into the spring season—you'll want to show off these beauties like your finest jewelry. Compared to the MOUNTAINSIDE™ Series, these can bloom earlier (depending on weather), have larger flowers and form more of a mounding habit the first two years in the ground.

SPRING BLING™ 'Pink Sparkles' – Soft, baby pink flowers with lighter halos at the centers. The earliest of the series to bloom with the largest flowers (1½")—double the size of most other *P. subulata* types.

SPRING BLING™ 'Rose Quartz' – Rose pink flowers. A deeper shade than 'Pink Sparkles' but lighter than 'Ruby Riot'.

SPRING BLING™ 'Ruby Riot' – Reddish pink flowers with darker eyes at center.

EXPOSURE: Full to Part Sun
 BLOOMS: Mid to Late Spring
 HEIGHT: 4-8"
 SPACE: 24-28"
 ZONE: (3)4-8

MOUNTAINSIDE™ 'Crater Lake' *Phlox* PPAF CPBRAf

MOUNTAINSIDE™ 'Majestic Magenta' *Phlox* PPAF CPBRAf

MOUNTAINSIDE™ (Hybrid Spring Phlox)

These serve as a spring groundcover that blooms around the same time as tulips and other bulbs. Unlike *P. subulata* (Creeping Phlox) that can easily overtake your garden, the MOUNTAINSIDE™ Phlox are more refined spreaders and are more compressed to the ground. These also bloom 1-2 weeks ahead of *P. subulata*, depending on spring weather.

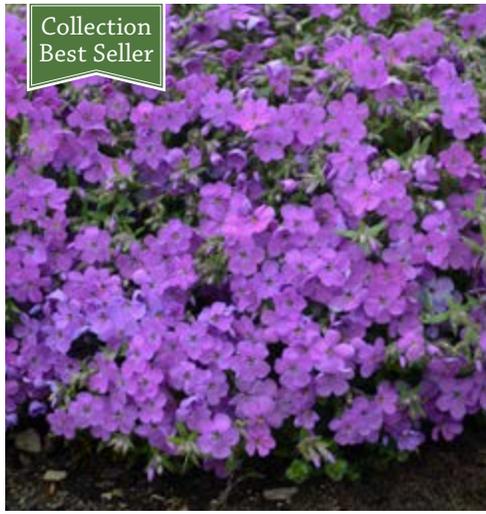

MOUNTAINSIDE™ 'Crater Lake' – Cool indigo purple flowers.

MOUNTAINSIDE™ 'Majestic Magenta' – Star-shaped, rich dark pink flowers. Can bloom up to a week earlier than 'Crater Lake'.

EXPOSURE: Full Sun to Light Shade
 BLOOMS: Mid to Late Spring
 HEIGHT: 14-18"
 SPACE: 7-12"
 ZONE: 4-8

'Magenta Sprite' Phlox PP31239 CPBRAAF

'Purple Sprite' Phlox PP31272 CPBRAAF

'Rose Sprite' Phlox PP31214 CPBRAAF

Sprite (Hybrid Spring Phlox)

Gardeners looking for a splash of spring color should look no further than the Sprite series. This interspecific series of Phlox is perfect for edging the front of the border and as an early season food source for pollinators. Try matching these hybrids with other moderately sized perennials such as 'Cat's Pajamas' Nepeta, DOLCE® Heuchera, or 'Boogie Woogie' Sedum.

'Magenta Sprite' – Magenta pink flowers.

'Purple Sprite' – Bright purple flowers with a tiny white halo in the center.

'Rose Sprite' – Rose pink flowers with a tiny white halo in the center.

EXPOSURE: Full Sun to Light Shade
BLOOMS: Mid to Late Spring
HEIGHT: 14-18"
SPACE: 7-12"
ZONE: 4-8

Sprite Series vs. Creeping Phlox

The Sprite series is a new type of spring blooming Phlox that behaves differently than the standard *P. subulata* (Creeping Phlox). Unlike Creeping Phlox, members of this series do not spread aggressively, rather, they form a low, mounding habit. This series also blooms a week or so later than *P. subulata*, great for extending the spring color of your garden. As an added bonus—although it prefers full sun, this Phlox will tolerate light shade.

'Cloudburst' Phlox PP30289 CPBRAAF

'Cloudburst' Tall Cushion Phlox

A truly one-of-a-kind Phlox, 'Cloudburst' finds itself somewhere in the middle of what's been seen before. It's tall, billowy habit flowers nearly to the ground. The initial flush of flowers appear like a dome of color in early summer, with rebloom through the end of the season. An excellent perennial for attracting pollinators.

EXPOSURE: Full Sun
BLOOMS: Early to Late Summer
ZONE: 4-8
HEIGHT: 28"
SPACE: 42"

'Opening Act Blush' Phlox PP27462 CPBR5991

'Opening Act Pink-a-Dot' Phlox PPAF CPBRAE

'Opening Act Ultrapink' Phlox PPAF CPBRAE

'Opening Act White' Phlox PP27461 CPBR5992

Opening Act Hybrid Phlox

Tall Garden Phlox are a mainstay in the midsummer sun garden, but for those who can't wait, this hybrid Phlox series starts early. It boasts a longer season of color in addition to being earlier blooming, with flowers typically appearing from early summer well into midsummer, with rebloom into early fall. The glossy foliage is mildew and disease resistant and will hold up to heat and humidity.

'Opening Act Blush' - Lavender pink flowers.

'Opening Act Pink-a-Dot' - Near white flowers with a central pink star pattern.

'Opening Act Ultrapink' - Fluorescent rose pink flowers.

'Opening Act White' - Pure white flowers.

EXPOSURE: Full Sun to Light Shade

BLOOMS: Early to Midsummer, Rebloomer

HEIGHT: 18-26"

SPACE: 24-32"

ZONE: 4-8

The Story Behind Hybrid Phlox

Sacrificing Perfect Panicles for Unmatched Performance

P. paniculata (also known as Tall Garden Phlox) have been one of the most popular types of perennials for traditional and native gardeners. Phlox offer an abundance of benefits in the landscape, whether serving as a thriller in summer gardens or as a hub for pollinators. This is a perennial that has been much adored through the years and rightly so. However, the quest for perfectly formed flower clusters at the top of each stem has limited the potential of the genus.

Opening Act Phlox take the genus in a different direction. As interspecific hybrids, Opening Act varieties trade perfectly formed panicles for mounding clusters - but this does not mean they lack any flower power! Compared to typical *P. paniculata* varieties, they bloom 2-4 weeks earlier and have significantly improved rebloom, with some flowers appearing even up to frost. Their performance in the landscape varies as well with stoloniferous habits, meaning that instead of clumping like *P. paniculata*, Opening Act varieties will slowly fill whatever space they are planted into. And they have improved mildew resistance!

LUMINARY™ 'Opalescence' *Phlox paniculata* PPAF CPBRAf

LUMINARY™ 'Ultraviolet' *Phlox paniculata* PPAF CPBRAf

LUMINARY™ Tall Garden Phlox

Tall Garden Phlox are a staple of summer gardens with their big, brightly colored panicles. These plants have become essentials when planning a pollinator or native inspired garden. LUMINARY™ Phlox ensure that whether you're planting for purpose or for pleasure, you get performance. Selected for mildew resistance and rebloom, these varieties will give you more flowers and cleaner plants.

LUMINARY™ 'Opalescence' - The flagship variety of the LUMINARY™ Collection and the new gold standard of powdery mildew resistance. Light pink flowers with dark pink eyes are produced over dark green leaves.

LUMINARY™ 'Ultraviolet' - Very dark, magenta violet flower panicles. An improvement on the industry standard 'Nicky', with darker stems and buds, bronzed leaves, more floriferous performance, and better resistance to powdery mildew.

BLOOMS: Mid to Late Summer

HEIGHT: 30-36", depending on variety

SPACE: 24-32", depending on variety

ZONE: 3-8

'Heaven Scent' *Polemonium* PP20214

'Heaven Scent' Polemonium (Jacob's Ladder)

This variety forms a mound of green, fern-like foliage with deep purple highlights from spring into summer. The foliage grows about 12" tall and is topped by clusters of lightly fragrant, blue flowers. Though most Polemoniums prefer afternoon shade, 'Heaven Scent' can handle full sun in Northern regions with a good supply of moisture.

EXPOSURE: Full Sun to Part Shade

BLOOMS: Early to Midsummer

ZONE: 3-7

HEIGHT: 18-24"

SPACE: 15-18"

'Spot On' *Pulmonaria* PPAF CPBRAf

'Spot On' Pulmonaria (Lungwort)

The flowers of 'Spot On' open a unique deep salmon pink (nearly orange) that matures to a rich blue color. This is one of the first Pulmonaria to have near-orange flower buds. Silver speckling dusts the green leaves. Use the speckled foliage as an accent for other shade plants after its bloom season.

COLOR SPIRES® Perennial Salvia

The COLOR SPIRES® collection is made up of an eclectic group of perennial Salvia, lacking the unifying characteristics of the Profusion series. Members of this collection carry their own unique traits, such as the large, vividly colored flowers of 'Indigo Girl' and the tall, narrower habit of 'Crystal Blue'. 'Azure Snow' also features the only bi-coloration among all perennial Salvia.

This year two new varieties have been selected for the COLOR SPIRES® collection and add new colors. 'Back to the Fuchsia' has dark fuchsia pink flowers on charcoal stems, while 'Snow Kiss' will be the lightest color of the collection with large white flowers featuring a soft pink lip.

COLOR SPIRES® 'Azure Snow' - Deep violet-blue and white bicolor flowers.

COLOR SPIRES® 'Back to the Fuchsia' - Fuchsia pink flowers on charcoal stems.

COLOR SPIRES® 'Crystal Blue' - Sky blue flowers.

COLOR SPIRES® 'Indigo Girl' - Indigo blue flowers in dark calyxes.

COLOR SPIRES® 'Pink Dawn' - Cotton candy pink flowers.

COLOR SPIRES® 'Snow Kiss' - Snow white flowers have soft pink lips.

COLOR SPIRES® 'Violet Riot' - Vivid violet blue flowers.

EXPOSURE: Full Sun

Profusion Perennial Salvia

This flagship new series of Perennial Salvia is in a class of its own! These *S. nemorosa* hybrids rebloom profusely and multiple times throughout the summer if the spent flower stems are cut back. The sheer density of flower stems will certainly catch your eye as you walk past! These are easy to grow perennials that are mostly unbothered by deer and rabbits. This is the perfect perennial series to kick off your summer garden!

'Perfect Profusion' - Icy blue flowers.

'Pink Profusion' - Dark pink flowers.

'Violet Profusion' - Violet blue flowers.

'White Profusion' - Pure white flowers.
