WALTERS GARDENS, INC.

North America's Leading Wholesale Grower of Perennials

SUMMER 2017-SPRING 2018

Proud Supplier of Proven Winners® Perennials

Welcome to Walters Gardens Inc.

North America's Leading Wholesale Grower of Perennials

About Our Front Cover

Featured on our front cover this year are a few of our most highly recommended new introductions, all of which are from the Walters Gardens, Inc. hybridizing program.

Pictured from top left:

- **Dianthus FRUIT PUNCH®**
'Classic Coral' PPAF (p. 66)—Striking coral pink flowers demand attention in either landscape or container.
- **Baptisia DECADENCE® DELUXE**
'Pink Lemonade' PPAF (p. 43)
—Soft yellow flowers age to a dusty raspberry purple. A one of a kind bicolor!
- **Heuchera PRIMO™ 'Wild Rose' PPAF (p. 111)**—Large rosy purple leaves have charcoal veining that really pops in the landscape.
- **Anemone 'Curtain Call Deep Rose' PPAF (p. 34)**—Compact and elegant, this new series of Anemones will extend the color of your garden late into frost. Watch out for its matching partner 'Curtain Call Pink'.
- **Salvia nemorosa 'Bumbleberry' PPAF (p. 176)**—Petite and sweet, the Bumble series is causing a buzz. 'Bumbleberry' might have made the cover, but its counterparts are every bit as noteworthy.

Come Visit Us!

When you Visit...

Come and see firsthand how bare root and plug perennials are produced on a grand scale. We'll be happy to show you our greenhouse facilities, colorful growing fields, and expansive display gardens when you visit. Have growing questions? Our growers are here to help you with your production challenges.

We'll be opening our doors again for the Michigan Garden Plant Tour, July 24 - August 4, 2017. It's a great time to visit, so plan your trip now!

Call 1-888-925-8377 or e-mail sales@waltersgardens.com to schedule your visit.

About Walters Gardens, Inc.

Established 1946

We have over 70 years of experience growing perennials, but it all started with the small flower business founded by Dena and John Knoll. Dennis Walters helped set the foundation for our company when he married their daughter, Harriet Knoll, and eventually took over the business in 1946. The original farm was 5 acres; everything was grown from seed, bare root, and hand dug.

Devoted Greenhouses

For us, it's not just about offering the best plants on the market, but offering the best value as well. That vision starts with dedicated employees, the best growers in the business, and a diligent plant health staff.

Our reputation is only as good as our product. You can be confident in our product because our goal is to provide you with nothing but the best of everything you order.

Bare Root Field Production

Through the years it is our Bare Root Production which has kept us unique in the industry. Thanks to our location along Lake Michigan, we enjoy sandy, well drained soil that helps our roots grow bigger faster. We've been growing high quality bare root product from the very beginning and that still rings true today.

Today, 2017

That 5-acre farm has grown to 1,500 acres and we're in the process of expanding our 500,000 square feet of greenhouses. Walters Gardens is still family owned and run. We haven't lost sight of our (bare) roots or the values that made this company what it is.

Our commitments to high quality plants and genetics have led to an expansive collection of Walters Gardens introduced varieties and a close relationship with the Proven Winners® brand.

All our success can be attributed to the employees who have spent countless years working and contributing to Walters Gardens.

New Plant Development

From Proven Genetics Comes Proven Performance

Breeder Profile

Hans Hansen

Meet Hans, head of the Walters Gardens hybridizing department. Hans is our go-to guy when it comes to knowing anything and everything about perennials. He's been living and breathing plants from a very young age, beginning his breeding work when he was just a teenager. Hans enjoys working with a wide variety of plants including Hostas, Baptisia, Peonies, and Mangaves. You'll find the results of his hard work throughout this catalog.

Crossing Hellebores in the Pollination Station

Our customers look to us for our exceptional genetics which have proven themselves over the years, from our distinctive hostas to our fabulous hardy Hibiscus and many others. The top exclusive genetics from our own hybridizing program and other hybridizers worldwide are trialed and selected for the Proven Winners® line.

Hybridizing goals are set for each genera with a focus on perennials that our growers, retailers, and home gardeners will be successful with. If you or someone you know is interested in having Walters Gardens, Inc. trial your new hybrids or sports, please contact the head of our hybridizing department, Hans Hansen (hans@waltersgardens.com) for more information.

The WGI New Plant Development Team works with Hibiscus selections

Walters Gardens, Inc. has made a strong commitment to provide only the most healthy, vigorous stock to our customers. We are working to ensure that all of our VIP designated crops are virus indexed regularly for the most common viruses as well as any crops that show symptoms of a virus. Plants are tested here at Walters Gardens, Inc. for the viruses listed below and are designated with a bow tie symbol.

WGI Plant Health Team

Virus Tests

General Perennials

- Alfalfa Mosaic Virus (AMV)
- Alternanthera/Papaya Mosaic Virus (AltMV/PapMV)
- Arabis Mosaic Virus (ArMV)
- Cucumber Mosaic Virus (CMV)
- Impatiens Necrotic Spot Virus (INSV)
- Potyvirus Group (POTY)
- Tobacco Mosaic Virus (TMV)
- Tobacco Ringspot Virus (TRSV)
- Tobacco Streak Virus (TSV)
- Tomato Aspermy Virus (TAV)
- Tomato Ringspot Virus (ToRSV)
- Tomato Spotted Wilt Virus (TSWV)

Dianthus

- 11 General Perennial tests (listed above)
- Carnation Etched Ring Virus (CERV)
- Carnation Latent Virus (CLV)
- Carnation Mottle Virus (CarMV)
- Carnation Necrotic Fleck Virus (CNFV)
- Carnation Ringspot Virus (CRSV)

Hosta

- Arabis Mosaic Virus (ArMV)
- Cucumber Mosaic Virus (CMV)
- Hosta Virus X (HVX)
- Impatiens Necrotic Spot Virus (INSV)
- Tobacco Ringspot Virus (TRSV)
- Tomato Ringspot Virus (ToRSV)
- Tomato Spotted Wilt Virus (TSWV)
- Tobacco Streak Virus (TSV)

vi • rus – in • dexed *adjective*

1. A virus-indexed variety is one that has been tested and deemed free of the viruses it was tested for up to the point of testing.

How to identify virus-indexed plants (VIP) in this catalog:

A bow tie symbol is located in the key code of each variety that has been virus-indexed.

Sustainable Production Practice *Integrated Pest Management*

In the Fields

Understanding the vital importance of plant health, we remain vigilant in preventing problems in our fields. Before a crop is planted in the field, we make sure our planting stock is clean and disease-free. We then diversify our plantings so that disease prone items are never planted in the same place twice. All of

the equipment used to plant and harvest our hosta stock blocks is sanitized between cultivars. We also scout weekly for weeds, insect damage, unusual variations in growth, trueness to type, and overall plant health.

In the Greenhouse

As in the fields, prevention is key when it comes to pest and disease management in our greenhouses. We do weekly scouting for any pest, disease, or nutritional issues and do preventative spraying in regular intervals to prevent the onset of disease. Our goal is to catch problems at the earliest stage possible and to target the treatment to the specific crop

before it spreads to other plants. When treatment is needed, we use beneficial insects or reduced risk pesticides which target specific pests rather than using broad spectrum chemicals.

Bare Root Perennials

As the largest wholesale grower of bare root perennials in the nation, we offer a broad selection of generously graded varieties. Most are grown for one season and are sold as #1 grade transplants or divisions. Hemerocallis, Hosta, and Intersectional Peonies are grown for two seasons before they are sold. Select perennials are offered in economically priced #2 grade divisions. See price list for complete availability.

#1 Grade Baptisia

#1 Grade Hosta

#2 Grade Hemerocallis

#1 Grade Salvia

#1 Grade Phlox

#1 Grade Hibiscus

#1 Grade (G1)

Most #1 grade perennials are one year plants or generously graded divisions of a one year plant. #1 Grade Hemerocallis and Hosta are sold as 2-4 eye/fan divisions of a two year field clump depending on the variety. Intersectional peonies are sold as divisions of a two year field clump.

Count: sold in multiples of 25

Minimum order: 1 box of 25

#2 Grade (G2)

Most #2 grade perennials are one year plants or divisions of a one year plant. #2 Grade Hemerocallis and Hosta are sold as smaller 1-2 eye/fan divisions of a two year field clump.

Count: sold in multiples of 100

Minimum order: 1 box of 100

Liatris and Achillea in full bloom in one of our fields

Product Profile

Plug Products

Many of the products offered in this catalog are grown in plug form. Several sizes are available including 20, 30, 72, and 128 count. The majority of our plugs are easy to transplant. Some plugs, while others are traditional loose fill plugs. The type of plug used is based upon the specific needs of the plant.

Larger 20 and 30ct plugs are best suited to customers looking for faster turnaround times and sales the same season. Smaller 72 and 128ct plugs are better suited for growers looking to produce larger quantities at a lower input cost. They are typically planted in summer for sales the following spring.

20ct Plugs

Approximate Plug Measurements:

3¼in deep x 2¾in wide

Minimum order: 1 tray of 20

20ct Loose Fill Plugs

Approximate Plug Measurements:

4¼in deep x 2¾in wide

Minimum order: 1 tray of 20

30ct Plugs

Approximate Plug Measurements: 3in deep x 2in wide

Minimum order: 1 tray of 30

30ct Grass Plugs - New for 2017!

In 2017, we are converting the majority of our large grass plugs to a new 30ct tray. The new tray features a significantly deeper, more cost-effective plug size. We anticipate the deeper plug will give you improved quality and similar performance to our 20ct, all at a lower price point.

20ct Tray

New 30ct Grass Tray

Approximate Plug Measurements: 4¼in deep x 2in wide

Minimum order: 1 tray of 30

Plug Products, cont.

We offer a number of perennials in economically priced 72 and 128ct plugs which are ideal for growers looking to produce larger quantities of their best selling items at a lower input cost. Don't see exactly what you're looking for? We accept custom orders for 72s and 128s (minimums apply). Please contact us for details.

72ct Plugs

Approximate Plug Measurements:
2½in deep x 1½in wide

Minimum order: 1 tray of 72

128ct Plugs

Approximate Plug Measurements:
2in deep x 1½in wide

Minimum order: 1 tray of 128

The Power Behind the Brand

The partnership between Walters Gardens, Inc. and Proven Winners has created the top destination for growers looking for outstanding genetics in top performing perennials. By selecting new varieties for both garden performance and production success, gardeners and growers alike are successful with our perennials. And that keeps them coming back for more!

We're Working for You

Some of the best minds in the business are part of the Proven Winners organization. From those who seek out new plants from across the globe for future introduction, to the people who trial and grow them, those who utilize every marketing dollar collected to further promote the brand, and everyone in between, we are all working to build the Proven Winners brand.

It Starts with Great Plants

A better garden starts with a better plant. To ensure only the top performing perennials are put into the Proven Winners brand, they are first trialed extensively. Trialing begins here at Walters Gardens, Inc., where new perennials are observed growing in the ground and in containers. From there, the select few we feel are worthy of being considered for the Proven Winners brand are passed along to the Proven Winners partners in the varying climates of Carleton MI and Loudon NH for additional trialing. After trialing is complete, plants are voted on and either accepted or rejected for the brand. Upon introduction, new Proven Winners Perennials are sent to numerous other trialing sites around the country for additional data collection.

US Trial Sites

- University of Georgia, Athens, GA
- Chicago Botanical Garden, Glencoe, IL
- Four Star Greenhouse, Carleton, MI
- Walters Gardens, Inc., Zeeland, MI
- University of Minnesota, Morris, MN
- Pleasant View Gardens, Loudon, NH

Proven Winners®

Perennial of the Year™

This past year Proven Winners revealed 'Banana Cream' as their inaugural Perennial of the Year for 2017 and 'Black Pearl' as the upcoming selection for 2018. The Perennial of the Year is selected for its exceptional performance in production and the garden, as well as its representation as one of the finest perennials on the market.

Supporting the Independent Garden Center

Around 75% of Proven Winners' sales come from IGC's. Realizing this, Proven Winners has several programs in place to support the Independent Garden Center, including the Certification Training Program.

This annual training program, which can be completed online, focuses on teaching retail garden center employees how to sell Proven Winners branded products. About 800 retailers become certified Proven Winners retailers each year. Has your garden center been certified yet? For more information, go to: www.provenwinners.com/professionals/retailers/certification

Proven Winners® University

Has your staff completed the Certification Training Program, but wants even bonus training? New this year, your staff can enroll in Proven Winners® University. This new program is a series of quick, informative videos (2-5 minutes long) that continues training once you've finished certification. It's a great way to continue the education of your employees.

For more information about Proven Winners® University, go to: www.provenwinners.com/Professionals/PWUniversity

Building Brand Awareness

100% of Marketing Dollars Reinvested

Great plants make a great plant brand. But it also takes an incredible amount of resources to build brand awareness among trade and consumer audiences. Many people are not aware that Proven Winners essentially operates as a not-for-profit organization in that every marketing dollar collected is reinvested directly into the Proven Winners brand. Millions of dollars are spent each year on one of the most extensive marketing campaigns of any plant brand.

Billboards

Gardener's Idea Book

The FREE Gardener's Idea Book inspires and offers creative gardening ideas to over 350,000 consumers annually.

The Grand Garden Show

Proven Winners reaches consumers directly at events created just for them like the Grand Garden Show at Mackinac Island and Outdoor Living Extravanzas.

Social Media Presence

Passionate and non-traditional gardeners are reached through a variety of social media platforms. Proven Winners continues to build their online community by posting current, creative ideas and timely information about Proven Winners products and events.

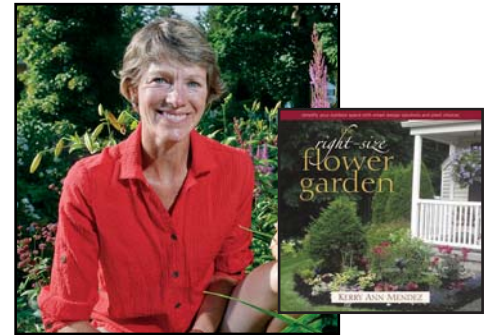

Brand Ambassadors

Reaching Out to Garden Media Professionals

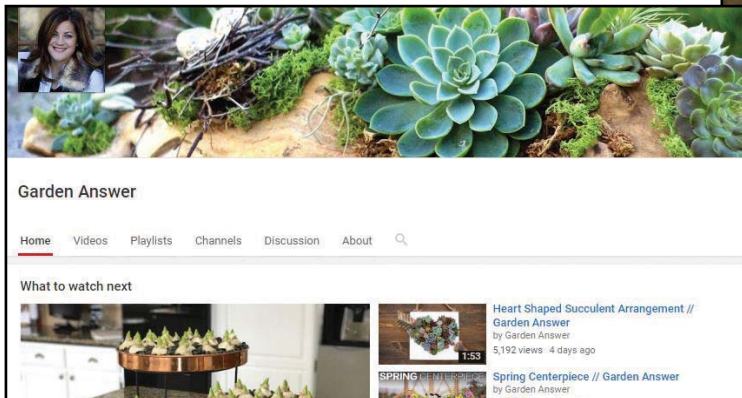

P. Allen Smith

P. Allen Smith is a plantsman that many avid gardeners look to for their gardening advice. They'll find him promoting Proven Winners through his television and radio shows, E-How Home and other online efforts, blogger events, talks, publications, and more. Allen generates millions of consumer impressions annually.

Kerry Ann Mendez

Kerry Ann Mendez is a self-taught gardener of 25+ years who loves to share her tips and tricks for low maintenance gardening. She's a garden consultant, designer, author, and lecturer. Mendez's work has been published in numerous gardening magazines and she has appeared on national and local television. She owns Perennially Yours (www.pyours.com).

Garden Answer

Proven Winners is always on the hunt for the latest and greatest trends and ways to translate them to the green industry. They found Garden Answer, a husband and wife team of Laura and Aaron LeBoutillier, who had began filming DIY and garden tutorials since 2014 and have since exploded in popularity. Laura has a background in horticulture—she used to work at her parent's garden center in Eastern Oregon before starting Garden Answer. Proven Winners now supports Garden Answer, so you'll see more Proven Winners plants being featured in their videos. Garden Answer, however, still has creative control so the videos are still as genuine and unique as ever.

Watch for these plants in Laura and Aaron's videos!

The Proven Package

Building Sales on Brand Awareness

Our partnership with Proven Winners® is now entering its seventh growing season, and we've seen the benefits of working with a consumer brand. We believe in the power of the Proven Package and all of the research that stands behind it. We know that perennials sold in branded containers will sell more plants as brand awareness builds.

Our customers are showing us every year with their repeat orders and order increases that Proven Winners Perennials are some of their top sellers. Sales are building annually as we watch our customers' businesses grow.

The Proven Package is essential for brand awareness—consumers know to look for the white Proven Winners branded container when they shop. That is why the white Proven Winners branded container and label are required for all Proven Winners Perennials. Benchcards are optional, but highly recommended, for retailers.

Proven Winners® Stake Labels

All of the Proven Winners Perennials we offer are sold with the Proven Winners stake label shown here. They feature attractive photos, easy to read information, and a QR code which provides additional images, growing tips, features and awards. The cost of this

label is included in the RMT amount for each plant. See p. 208 for more information.

Proven Winners® Premium Square Labels

We are now offering our large 5" square labels for all Proven Winners varieties that we offer and are no longer requiring the larger square tag for select items. **If you do not request the square tag, you will receive the smaller stake label by default.** The larger square label has much greater visibility than the smaller stake label, which can get lost in the plant. Stakes are sold separately and included with the square label automatically. See p. 208 for more information and pricing.

We do recommend the square tag for the following items:

- DECADENCE® Baptisias
- All Proven Winners ornamental grasses
- All Proven Winners daylilies
- SUMMERIFIC® Hibiscus
- Ligularia 'Bottle Rocket'

Proven Winners® Benchcards

Professionally designed and printed benchcards are available for all Proven Winners Perennials and may be ordered through their online store at www.ProvenWinners.com. Do you prefer to download and print benchcards yourself? That option is also available at www.provenwinners.com/catalog/point-purchase/benchcards-perennials.

If you prefer the benchcards for your Proven Winners perennials to match your other non-branded benchcards that you've ordered from Walters Gardens, Inc., they are also available. Go to www.WaltersGardens.com to download the order form or give us a call and we will be happy to email or fax you a copy.

Walters Gardens
Benchcards

Proven Winners® Branded Containers

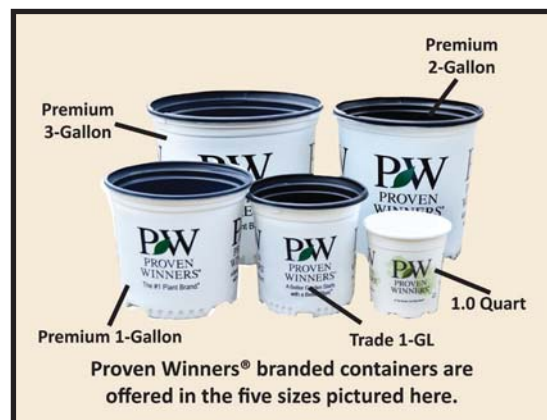

We strongly believe that Proven Winners® branded containers are essential to the success of the brand, ensuring better brand recognition and sell-through for our customers. Therefore, Proven Winners® branded containers are required for all Proven Winners® Perennials.

- * Five sizes of containers are available for Proven Winners Perennials. For your convenience, the recommended container size is listed with each Proven Winners variety in this catalog and online. You may purchase any size container you'd like for your perennials. If you don't specify a container size when you place your order, we'll send the recommended size.
- * One container is shipped for every one Proven Winners® Perennial. For example, 20 containers will be included for each tray of 20 plugs.
- * Containers are stocked and shipped from Walters Gardens, Inc. with or just in advance of your plant order.

Proven Winners® Branded Container Pricing

This year we are able to list pricing in our catalog and you can see it in the table below. You may obtain our current branded container pricing and volume discounts from the login area of our website or by contacting your sales representative, broker, or Walters Gardens, Inc. directly.

Due to the unpredictable nature of plastic prices, we cannot guarantee container prices will not change throughout the year. However, container prices are locked in when you place your order.

Proven Winners® Branded Container Sizes

Name (Pot#)	Size	Soil Capacity	Volume	Pricing (Level 1)
1.0 Quart Injection Molded Container (NRT 001Q)	4 5/8" diameter x 4 1/16" height	55.6 cu. in.	1.00 quart/ 946mL	\$0.250
